Description

This brand new MAXUS Deliver 9 Work Ready Luton has covered just 2 miles and is finished in White, offering an excellent opportunity to secure a ready-to-work commercial vehicle with immediate availability. Powered by the reliable 2.0-litre D20 diesel engine with a manual gearbox and rear-wheel drive, the Deliver 9 provides strong performance, durability, and excellent load-carrying capability. The L4 long wheelbase configuration provides an extended chassis, making it an ideal platform for a spacious Luton body. The Luton body offers generous enclosed load space and is perfectly suited to removals, furniture delivery, logistics, retail distribution, and a wide range of commercial applications. As a Work Ready model, this vehicle provides the practicality of a professionally prepared vehicle without the need for additional conversion or waiting for a factory build. Fully Euro 6 compliant and ULEZ friendly, it is suitable for both urban and longer-distance operations.
