Description

Northside Truck & Van is a well-established MAXUS dealer, operating from three locations across Yorkshire and supplying high-quality vehicles to customers, with delivery available throughout the UK. We pride ourselves on providing a hassle-free buying experience, supported by expert product knowledge and comprehensive aftersales care. Every new MAXUS vehicle comes with a 5-year / 60,000-mile warranty, while electric models also benefit from an 8-year / 100,000-mile battery warranty. For added peace of mind, complimentary breakdown cover is included as standard. Get in touch with our friendly and experienced sales team to discuss your requirements and find the right vehicle for your needs. This exceptional vehicle, a MAXUS Deliver 9, has been expertly converted into a highly practical and accommodating accessible minibus. Starting life as a Long Wheelbase (LH) Front-Wheel Drive (FWD) Panel Van in Base specification, it has been professionally transformed to

offer a versatile seating arrangement. It is a Wheelchair Accessible Minibus (WAV Minibus), designed to facilitate the safe and comfortable transportation of multiple passengers alongside a mobility aid user. This conversion provides seating for up to 10 passengers (including the driver), with a flexible floor plan allowing secure space for one wheelchair user. The interior has been meticulously planned for ease of use and passenger safety. Access for the wheelchair is typically facilitated via a ramp or an electrically operated lift at the rear or side, ensuring a smooth and dignified entry and exit process. Inside, the conversion will feature specialist flooring with tracking to secure the wheelchair firmly in place, alongside M1 or M2 compliant seating with appropriate restraints for all occupants. This focus on accessibility makes the vehicle an invaluable asset for care homes, community transport groups, schools, or any organisation requiring reliable multi-passenger transport with inclusive capabilities. Beneath the highly functional conversion remains the dependable MAXUS Deliver 9 chassis, powered by a high-efficiency Euro 6 diesel engine. The Base model includes practical features such as air conditioning, cruise control, and a modern cab environment to keep the driver comfortable during long hours on the road. Safety is paramount, with standard features including Automatic Emergency Braking (AEBS) and a Lane Departure Warning System (LDWS). This combination of a robust, modern van and a professionally executed accessible conversion offers a complete, ready-to-deploy solution for group and inclusive transport needs, delivering both value and peace of mind.
