Description

This 2025 MAXUS Deliver 9 is a robust and capable commercial vehicle, ready for demanding tasks. Featuring a powerful 2.0L D20 diesel engine, this Euro 6 compliant model offers excellent efficiency and performance. Its rear wheel drive (RWD) configuration and L3 H3 body style provide ample space and stability. Notable features include a PTO interface for added versatility, a durable drive axle with leaf springs for heavy loads, and rear parking sensors with parking assistance for easier manoeuvring. Inside, you'll find air conditioning for comfort and a comprehensive radio system with MP3, AUX, USB, and Bluetooth connectivity. The MAXUS Deliver 9 stands out with its impressive 2800 kg towing weight, making it a superior choice for businesses needing to transport substantial loads. The inclusion of a PTO interface further enhances its utility, allowing for the integration of additional equipment, setting it apart from many competitors. Combined with its practical features like rear

parking sensors and a well equipped infotainment system, this vehicle is designed to support your business operations efficiently and comfortably.
