## Description

This 2025 MAXUS Deliver 9 is a prime example of a well maintained commercial vehicle. This L3 H2 model, registered in 2025, is powered by an efficient 2.0 litre Euro 6 diesel engine, ensuring compliance with current emissions standards. It features a practical front wheel drive system and boasts a generous towing weight of 2800 kg, making it a capable choice for a variety of tasks. Inside, you will find comfort and convenience with air con, rear parking sensors to aid manoeuvring, and an integrated radio system with MP3, AUX, USB, and Bluetooth connectivity for your entertainment and communication needs. The MAXUS Deliver 9 D20 derivative offers a compelling package for those seeking reliability and functionality. Its Euro 6 compliant 2.0 litre diesel engine provides a good balance of power and economy, while the 2800 kg towing capacity sets it apart from many competitors in its class. The inclusion of rear parking sensors and Bluetooth connectivity further enhances its usability, demonstrating a thoughtful approach to driver convenience that surpasses standard offerings. This vehicle is equipped to handle demanding work environments with ease.
