Description

The MAXUS eDeliver 9 PV LH 88.5KWH is an all-electric van designed for those who prioritize both sustainability and functionality. Powered by an 88.5kWh battery, this vehicle delivers impressive range and zero-emission performance, making it ideal for eco-conscious businesses. With a spacious cargo area, the eDeliver 9 is perfect for transporting goods while offering lower operational costs compared to traditional diesel models. It also features advanced safety systems, modern technology, and a comfortable interior, ensuring a smooth and reliable drive while meeting the demands of various industries.
