Description

This 2024 MAXUS eDeliver 5 is a remarkable find, boasting an incredibly low mileage of just 10 miles and having had only one owner from new. This electric van, the 64kWh Auto L1 6dr derivative, offers a substantial battery total capacity of 64 kWh, providing a maximum range of 208 miles when new. It comes equipped with rear parking sensors for easier manoeuvring, a large 12.3 inch touchscreen featuring MP5, USB, Bluetooth, Wireless CarPlay, Android Auto, and DAB radio. For enhanced visibility, it includes LED headlights, and comfort is assured with air conditioning. A practical detachable front tow hook is also fitted. The MAXUS eDeliver 5 stands out with its impressive electric powertrain, delivering 161 bhp, which is a strong performance indicator compared to similar vehicles. Its 208 mile range is a key advantage for daily use, and the rapid charging capability means it can reach 80% charge from empty in just 48 minutes, minimising downtime. This combination of low usage, single ownership, and advanced features makes this eDeliver 5

a compelling choice for those seeking an efficient and well equipped electric van.
