Description

This 2025 MAXUS Deliver 9 is a prime example of a well maintained commercial vehicle, ready for immediate use. This L3 H2 model, designated as the 2.0 D20 FWD Euro 6 (s/s) 5dr, is powered by an efficient 2.0 litre diesel engine. It meets Euro 6 emission standards, ensuring compliance with current regulations. For added practicality, this vehicle boasts a substantial towing weight of 2800 kg. Inside, you will find comfort and convenience with air conditioning, and an integrated radio system featuring MP3 playback, AUX, USB, and Bluetooth connectivity. Manoeuvring is made easier with rear parking sensors. The MAXUS Deliver 9 offers a compelling package for those seeking a reliable and capable van. Its robust towing capacity of 2800 kg sets it apart, providing greater flexibility for hauling loads compared to many other vehicles in its class. The inclusion of rear parking sensors enhances safety and ease of use, particularly in tight spaces. Furthermore, the comprehensive infotainment system, complete with Bluetooth,

ensures connectivity and entertainment on the go, making it a superior choice for your business needs.
