Description

This 2025 MAXUS eTERRON 9 presents an exceptional opportunity with an incredibly low mileage of just 10 miles, practically new for its registration year, and has had only one owner. This Luxury derivative features a substantial 102 kWh battery, offering a maximum range of 267 miles on a full charge, and benefits from Four Wheel Drive capability. Inside, you'll find Automatic Air Conditioning with Climate Control, a heated Microfibre and Leather Multifunctional Steering Wheel, and Vehicle Bluetooth connectivity. For convenience, it includes Mobile Wireless Charging and Adaptive Cruise Control, making journeys more relaxed. The eTERRON 9 Luxury Auto 4WD boasts an impressive engine power of 436 bhp, significantly enhancing its performance compared to other vehicles in its class. This electric powerhouse also offers a remarkable towing

weight of 3500 kg, providing versatility for various needs. With its combination of advanced technology, substantial range, and powerful performance, this MAXUS eTERRON 9 is designed for a premium driving experience.
