### Description

This nearly new 2025 (25 plate) MAXUS eDeliver 3 is a fully electric, long wheelbase (L2) panel van designed for efficient urban and regional business use. With just 2 miles, 1 owner, and a clean white finish, it offers a cost-effective and eco-friendly solution for modern fleets and trades. Powered by a 50.23kWh battery and smooth automatic front-wheel drive, the eDeliver 3 delivers quiet, zero-emission driving with a real-world range of around 140–165 miles (WLTP) depending on conditions. Its compact exterior makes it ideal for city driving, while still offering impressive practicality, including up to 4.8m<sup>3</sup> load space and payload capacity of around 1,000kg. Inside, the cabin is designed as a mobile workspace, featuring a 7-inch touchscreen infotainment system, smartphone connectivity (Apple CarPlay/Android Auto), air conditioning, and driver-assist features such as cruise control and parking sensors.
