## Description

This 2026 MAXUS eDeliver 5 is a superb example, having had only one owner since new. This electric van, presented in the 64kWh Auto L1 6dr derivative, offers a substantial 64 kWh battery capacity, providing a maximum range of 208 miles on a full charge. For convenience, it can achieve an 80% charge in just 48 minutes at a public charging station. Notable features include air con for a comfortable cabin, rear parking sensors to aid manoeuvring, and bright LED headlights for improved visibility. It also comes equipped with a detachable front tow hook and a 360 around view system, offering comprehensive assistance when parking and for any towing needs. The eDeliver 5 stands out with its impressive 161 bhp electric engine power, indicating a strong performance compared to other vehicles in its class. This power, combined with the 208 mile maximum range, ensures it is well suited for a variety of tasks. The single owner provenance further enhances its appeal, suggesting careful use and maintenance. This MAXUS eDeliver

5 is a practical and capable electric van ready for its next chapter.
