Description

This 2026 MAXUS eDeliver 5 is presented with an exceptionally low mileage of just 2 miles, indicating it is virtually new and has had only one owner. This electric van, in the 64kWh Auto L1 H2 6dr derivative, boasts a 64 kWh battery offering a maximum range of 190 miles when new. Charging to 80% on a public charger can be achieved in as little as 48 minutes. Inside, you'll find comfort and convenience with heated front seats, adaptive cruise control for effortless journeys, and a large 12.3 inch touchscreen system complete with MP5, USB, Bluetooth, wireless Apple CarPlay and Android Auto, and DAB radio. Parking is made simpler with rear parking sensors, and for added utility, it includes a detachable front tow hook. The MAXUS eDeliver 5 is powered by an electric engine delivering an impressive 161 bhp. These features collectively highlight how this particular vehicle offers a superior experience compared to other vans in its class. The combination of its near new condition, extensive technological features, and efficient

electric powertrain makes it a compelling choice for those seeking a modern and capable commercial vehicle.
