Description

This 2026 MAXUS eDeliver 5 is presented in exceptional condition, having covered an incredibly low mileage of just 2 miles from new, and boasts a single owner. This electric van, the 64kWh Auto L1 6dr derivative, offers a substantial battery total capacity of 64 kWh, providing a maximum range of 208 miles when new. It comes equipped with a range of practical features designed for convenience and safety, including a detachable front tow hook with an integrated towbar, LED headlights for enhanced visibility, heated front seats for comfort in colder weather, air conditioning, and a 360 around view system for effortless parking and manoeuvring. The MAXUS eDeliver 5 stands out with its impressive performance and efficiency. Its electric powertrain delivers a notable 161 bhp, ensuring responsive driving. The highlighted maximum range of 208 miles indicates its capability for longer journeys, while the rapid charging time of just 48 minutes to reach 80% from empty on public chargers means less downtime. These specifications

position the eDeliver 5 as a highly competitive option for those seeking an electric van that combines utility with advanced technology and excellent range.
