Description

This 2024 MAXUS eDeliver 7 presents an exceptional opportunity with its remarkably low mileage of just 3362 miles. This electric van, a 77kWh Auto L1 H1 5dr derivative, boasts a substantial 86 kWh battery capacity, offering a maximum range of 198 miles when new. It comes equipped with a suite of advanced features designed for convenience and safety, including a 360 Camera with parking assistance, Intelligent Headlight Control with automatic activation, and LED headlights. For seamless connectivity and entertainment, it features an MP5 DAB radio with Bluetooth, while Adaptive Cruise Control with Stop and Go enhances the driving experience on longer journeys. The MAXUS eDeliver 7 stands out with its impressive engine power of 201 bhp, indicating a strong performance capability compared to other vehicles in its class. Its rapid charging capability is another key advantage, reaching 80% charge from empty in just 57 minutes, a testament to its efficient electric powertrain. The highlighted maximum range of 198 miles ensures practicality for daily use, making it a compelling

choice for those seeking an electric van that combines advanced technology with robust performance and efficiency.
