Description

The 2025 MAXUS T60 MAX 2.0 TT Auto 4WD is a capable four-door pickup truck designed to handle demanding tasks with ease. This vehicle is powered by a 2.0-litre diesel engine that delivers 212 bhp, paired with an automatic transmission and a four-wheel drive system to ensure reliable performance across various terrains. As a Euro 6 compliant vehicle, it meets modern emission standards, and this specific example has had only one owner from new. This model is equipped with a range of practical features designed to enhance comfort and convenience for the driver and passengers. The interior includes front electric heated seats and a rear air conditioner outlet positioned in the armrest to maintain a comfortable cabin environment. Manoeuvring is made simpler with both front and rear parking sensors, while the adaptive cruise control system helps manage speed on longer journeys. With a towing capacity of 3500 kg, this vehicle offers the strength and utility required for heavy-duty work, making it a practical choice for those who need a robust and well-equipped pickup.
